Who We Are

As a rising aquaculture company in Africa, we acknowledge our vital role in addressing aquaculture value chain challenges, sustaining availability of healthier protein foods security, job creation and economic empowerment for all; including the youth and women.

Bayrise is a sustainable aquaculture company recognized for its people, products, and performance. We are a social enterprise company with the triple bottom line business model – building a successful business, while being environmentally and socially responsible.

We partner with the best in the industry to deliver well thought-out solutions which are sustainable, with emphasis on cost reduction, speed of execution and low environmental footprint.

Our Mission:
To become a sustainable aquaculture company that does well for the good of society.

Our Vision:
Sustainably produced and accessibility of affordable fish as a healthier protein for all

Our Values:

The Bayrise Way is all about Getting Results the Right Way:

- We Protect People and the Environment
- We operate with Integrity and strive to earn your Trust
- We value Partnerships & Ingenuities that leads to High Performance

Bayrise is your partner of choice for an inclusive and sustainable aquaculture for the good of society. We love our customers and all other stakeholders, and we are here to help. Together, we can rise and grow sustainably!

Our Products:

Bayrise is known as a company of high quality. In additional to our nutritious and fresh fish you enjoy, we also supply high quality fish feeds and modern aquaculture equipment & technology. We are farmers just like you, so we know what you need and what works.
